

Fringe Benefit Rates on Proposals-Update

The campus fringe benefit rate guidance memo was amended in March 2006 to include projected increases in fringe benefit rates due to anticipated UC Employer/Employee contributions to the UC Retirement System. These contributions, while originally scheduled to start July 1, 2007, have now been placed on hold.

Once the campus has further information on the plans for the UC Retirement Program a new updated guidance memo will be prepared for the campus.

In the meantime, the March 2006 fringe benefit guidance memo has been adjusted to remove the UCRP contributions originally anticipated. The revised guidance has now been posted on the C&G webpage at: <http://www.research.ucsf.edu/cg/memo/cgFringe.asp>. This revised memo should be followed effective immediately when preparing budgets for sponsored project proposals at UCSF.
