

Revised Subaward Request Form

The Subaward Request Form used when a request is made to issue a subaward to an outside institution has been revised, and is now available on the C&G webpage at: <http://www.research.ucsf.edu/cg/forms/cgUCSFform.asp>.

Changes have been made to make the form more user friendly, and to match with terminology used in the campus Research Administration System (RAS). This form should be used effectively immediately for all outgoing subaward requests.

Please distribute this notice on to all appropriate PI and research administration staff within your department/unit. Questions related to this new form can be directed to andrew.boulter@ucsf.edu.
